

EXERCISE 6

NAME: ASWIN SIDDHARTH A

ROLL NO: 240701064

App Layout & Colour Scheme Design using GIMP

AIM:

To design different app layouts and experiment with various color schemes, and to evaluate user feedback on aesthetics and usability using GIMP.

PROCEDURE

Step 1: Install GIMP

1. Download GIMP from the official website.
2. Install and launch the application.

Step 2: Create a New Project

1. Open GIMP.
2. Click **File → New**.
3. Set dimensions:
 - Width: 1080 px
 - Height: 1920 px
4. Click **OK**.

Step 3: Design Base Layout

1. Select **Rectangle Select Tool**.
2. Divide the canvas into:
 - Header
 - Content Area
 - Footer
3. Use **Bucket Fill Tool** to apply colours.

Step 4: Experiment with Colour Schemes

1. Duplicate the layout:
 - **Image → Duplicate**
2. Modify colours using:
 - Bucket Fill Tool
 - colours → Colorize
3. Create multiple designs:
 - Light theme
 - Dark theme
 - Colourful theme

Step 7: Save and Export

1. Go to **File → Export As.**
2. Save files as:
 - layout1.png

Step 8: Collect User Feedback

1. Create a feedback form (Google Forms).
2. Include questions:
 - Which layout is visually appealing?
 - Which design is easy to use?
3. Share designs with users.
4. Collect responses.
